Summary

Flutter Developer Motivated and fast-learning 3rd-year Computer Science student at Modern Academy – El-Maadi, dedicated to building efficient and user-friendly mobile applications using Flutter. Seeking internship opportunities to apply and expand skills in cross-platform development and backend integration.

Education

Bachelor of Science in Computer Science

Modern Academy, El-Maadi

2023 – 2027 (Expected Graduation)

Skills

- Technologies: Firebase Authentication, REST APIs, State Management (Provider, Riverpod, BLoC)
- Soft Skills: Problem-solving, Teamwork, Time Management, Self-learning
- Languages & Tools: Dart, Flutter, Firebase, Realm, Git,

Arabic : Native English : Good

Trainings

Mobile App Development Trainee

Div Academy – July – Aug 2025

Worked on real-world projects using Flutter and Firebase, and practiced UI design and data handling using Realm.

Projects

YME STORE – E-commerce Mobile App

GitHub: github.com/YoussefsalemAli/final_project-

Tech Stack: Flutter, Dart, Firebase Authentication, Realm

Developed a full-featured e-commerce application with:

- User authentication using FirebaseAuth
- Product listing and detail view
- Cart management with item quantity control
- Order history tracking
- Used Realm for local data persistence and offline support

To-Do App – Task Manager (Personal Project)

Tech Stack: Flutter, Dart, BLoC (Cubit), Hive

Built a task management mobile application featuring:

- Task creation, updating, deletion, and completion status
- Offline-first experience using Hive for local storage
- State management implemented with flutter_bloc and Equatable
- Responsive and clean UI
